Jumbo 2 The Return of the Big Elephant (2008) Hindi Movie Free Download Ace detective Donald Shane and his sidekick, a gung-ho rookie, pull off a brilliant crime-solving stunt to save a life and earn a promotion. But they soon find themselves stranded in the wilds of Florida, far from help, and being pursued by a dangerous psychopathic killer. 4 out of 5 stars from 1 reviews. Jumbo 2 The Return of the Big Elephant. Jumbo 2 The Return of the Big Elephant () is a 2008 Indian Hindi-language action comedy-drama film directed by Rajkumar Gupta and starring Mithun Chakraborty, Rimi Sen and Tota Roy Chowdhury.

It is a sequel to the successful film, Jumbo. The present invention relates generally to the field of absorbent articles such as disposable diapers, adult incontinence pads, and feminine napkins and more particularly to a belt-like member used for the attachment of such articles to the body. A variety of products are sold as absorbent articles, such as diapers, adult incontinence pads, feminine napkins, training pants, and the like. Such absorbent articles absorb and contain body exudates, such as urine, fecal material, blood, and menses. In particular, many disposable diapers, such as those sold under the trade names HUGGIES by Kimberly-Clark Corporation and CLIFSIX by Owens-Corning Fiberglass, have flat topsheets. The topsheet is the outer, body contacting layer of the diaper. Breathable diapers having breathable backsheets are known. For example, U.S. Pat. No. 4,679,150 issued Jul. 14, 1987 to Charle et al. teaches a diaper with an absorbent core and a single layer polyolefin nonwoven topsheet with holes to allow for gaseous communication between the skin-contacting layer and the absorbent core. The topsheet is a breathable polyolefin material. The breathable topsheet is positioned between a liquid pervious backsheet and a liquid impermeable outer cover. European Patent Application No. 0 369 694 A1 published Apr. 19, 1990 teaches a diaper with a topsheet, a backsheet, and an absorbent core. The topsheet is a highly breathable hydrophilic material. The topsheet has a moisture permeability of at least about 82157476af
